STONE AT FAIRVIEW.

Spoke Yesterday to an Enthusiastic Crowd.

Paid His Respects To Hardin In Some Very Plain Language.

Fairview, Ky., June 8.—Capt. W. J. Stone spoke here this afternoon in the interest of his race for Governor. A fair crowd was on hand and the Captain had on his fighting clothes. The fight in Todd county is very bitter between the Hardin and Stone forces. The Hardin men have flooded the county with literature attacking Capt. Stone, and his friends made this appointment and one at Daysville tonight for him to answer the charges. He discussed the attacks on his record in a very pointed style and paid his respects to Gen. Hardin in very plain language. His speech had a decided impression here and his already large following was considerably increased.

Capt. Stone is very much satisfied with his prospects for the nomination.

He left for Daysville at the conclusion of his speech.

COMMITTEE CALLED

By Chairman Johnston To Meet at Lexington.

Lexington, Ky., June 8.—Chairman P. P. Johnston, has called a meeting of the Democratic State Executive Committee for Tuesday, June 13, at noon, at the Phoenix Hotel, Lexington, in response to a request from Committeemen James Roark and Meacham.

Chairman Johnston insists that Committeeman Vreeland has no authority to take charge of arrangements for the State Convention and says that party law provides for the chairman carrying out the wishes of the committee. He will make a strong fight against Vreeland's furnishing badges and tickets of admission to members of the committee.

THREE WOMEN DROWNED.

Lose Lives While Bathing in Creek at Lebanon, Ill.

Lebanon, Ill., June 6.—Misses Ruth Jepson, of Lebanon, Florence Spies, of St. Jacob, and Hellen Jack, of Beaupou, Ill., students at McKendree college, were drowned in the creek near here this afternoon. The college term has about closed and the young women were in a party of six that went bathing in Silver creek.

RADIANT WITH JOY.

Dreyfus Gets the News of the New Trial Granted Him.

Fort De France, Island of Martinique, June 6.—When the dispatch boat Goeland, bearing the superintendent of the prison and the commander of the marine artillery who were designated by the French government to notify Dreyfus of the revision of his trial, arrived yesterday from Cayenne at the Isle du Diable, Dreyfus was waiting on the shore. He received the official intelligence with a countenance radiant with joy.

FOUND DEAD.

Young Lady in Marshall County Dies Suddenly.

Miss Dora Story, aged 17 years, was found dead in her bed Monday night at the home of her mother near Ozan, Marshall county. She died from natural causes, and besides a mother she leaves four sisters and one brother. Her remains were buried at the family burying ground yesterday afternoon.

CIRCUIT COURT.

Petit Jury Empaneled and Court Gets Down to Work.

The Haskins Murder Case Dismissed on Motion of the Commonwealth.

The following petit jurors have been announced:
Sam Brown, B. F. Anderson, Dudley McClendon, Chas. E. Oliver, H. P. Rives, J. B. Martin, Sr., R. F. Vaughan, John H. P'Pool, W. H. Roberts, J. H. Underwood, L. J. Purcell, John W. Pritchett, Geo. L. Cavanaugh, Jesse A. Payne, Sam Ralston, J. M. McCord, Tobe Moseley, W. L. Turner, E. O. Morris, O. A. West, Alex Carpenter, W. M. Cravens, J. R. Goode, Ira L. Moss, Robert Vaughan, Columbus Gladdish, George Walker, George Boyd, Alford Littlepage.

The case of the Commonwealth against Wm. Jones, charged with detaining a woman, was continued to the September term.

John Hendricks selling liquor without a license, fined \$20.

Marcus Boyd and others, charged with injuring church property, dismissed.

The most important case set for this week was that of Albert Haskins, col., indicted for murder. This case was called Wednesday morning and on motion of the Commonwealth was dismissed. Henry Reese, col., was killed near Herndon about a year ago, and an indictment was returned charging Haskins with murder. Haskins has been out on bond.

Several Commonwealth cases were called and continued until the next term of court.

SHOT AS SPIES.

Party of Scientists Killed By Russian Troops.

Victoria, B. C., June 7.—Asiatic papers of May 6 contain the news that the fate of the party of scientists, missing for upward of a month past, has been disclosed. They landed near Tosang on the Liao Tung peninsula to pursue their investigations of earthquake phenomena and mountain flora, when they were made prisoners by a party of Russian cavalry and shot as spies without the semblance of a trial.

Their photographic and other scientific apparatus was destroyed. There were eleven professors in the party, one German savant and ten native Japanese, whose homes were in Kobe and Tokio. The Japanese authorities will make a thorough investigation.

MAJ. JOHNSTON'S FRIENDS.

Fear He Has Made Trouble For Himself In Overriding Committee.

Lexington, Ky., June 7.—Chairman P. P. Johnston, of the Democratic State Central Committee, refuses to discuss the trouble resulting in the calling of a meeting of the committee on June 13. It is the impression of his friends that there is trouble in store for Maj. Johnston because he repudiated the action of the committee in authorizing Committeeman Vreeland to make preparations for the State Convention to be held at Louisville.

ESCAPED FROM ASYLUM.

Muhlenberg Lady Took French Leave Yesterday Morning.

Mrs. Johnson, an inmate of the asylum, escaped from the institution yesterday morning and at last accounts was still at large. She was out on the lawn with other patients and suddenly disappeared, leaving no idea of the route she took. Mrs. Johnson was sent here several years ago from Muhlenberg county for treatment.

TAYLOR IN THE LEAD.

Five More Counties Add to His Winnings.

What The Results Show—Henry Republicans Denounced The Trust and Indorsed Taylor.

Frankfort, Ky., June 5.—Attorney General Taylor's victories of Saturday in the Republican county conventions to send delegates to the state convention at Lexington, were followed up today by the solid instructions of five additional counties, thus giving the Butler county man such a lead in the fight that it seems impossible that he will be headed off. The counties holding conventions were Harlan, Monroe, Henry, Barren and Elliott.

Gen. Taylor received instructions in each of these counties, thus giving him 140 instructed votes so far as follows:

For Taylor—Magoffin, 12; Barren, 16; Clark, 10; Crittenden, 15; Harlan, 6; Henry, 13; Johnson, 16; Elliott, 11; Taylor, 8; Marion, 13; Marshall, 2; Martin, 7; Morgan, 9; Monroe, 11.

For Pratt—Livingston, 6.

For Stone—Clark, 7.

Uninstructed—Breckinridge, Russell, Jessamine. Both Taylor and Stone claim these.

Eight hundred and forty votes are required to nominate. The Stone and Pratt people claim that the fight has not yet fairly opened, and that they have a good show to win, in the face of Taylor's big start. The fight has stirred up considerable bitterness among the warring factions.

AT NEW ORLEANS.

The Southern Poultry Association Organized and Got a Good Send Off.

This Association was organized at New Orleans, La., May 26, with 27 members. Mr. E. Dunstan, Winona, Miss., was elected president, and J. E. Lawther, Dallas, Tex., secretary and treasurer.

Vice Presidents.—Louisiana, Gus Samuels; Texas, C. S. Brigrance; Mississippi, A. C. Berdon; Georgia, J. D. McCarty; Alabama, H. J. McCafferty; South Carolina, Dr. S. T. Lea; Tennessee, D. M. Owen; Kentucky, Carl C. Moore; Oklahoma, L. F. Lawther; Arkansas, G. W. Brown.

Executive Committee.—Louisiana, Geo. A. Eyrych; Texas, W. C. Graves; Mississippi, N. L. Hutchison; Georgia, Mrs. John F. Flournoy; Alabama, R. F. Goss; North Carolina, F. E. Hege; Tennessee, M. D. Andes; Oklahoma, J. J. Wallace; Arkansas, W. H. Westbrook.

The membership fee was placed at two dollars, and annual dues at one dollar.

We found an excellent exhibition and the birds in very much better condition than would be expected considering the season. They had exhibits from Georgia, Mississippi, Louisiana, Texas and Illinois, and the Louisiana breeders exhibited good stock, holding their own well when they came in competition with birds from other states. There were very few specimens disqualified.

IN RUSSELL CREEK.

G. M. Heaton, a Brother of the Editor of the Spectator, Drowns at Columbia.

Columbia, Ky., June 5.—G. M. Heaton was drowned in Russell creek this afternoon while bathing. He got out of his depth and was unable to swim. Mr. Heaton had only been a citizen of Columbia three months, his former home being at Terre Haute, Ind. He was a talented young man and a brother of F. G. Heaton, one of the editors of the Columbia Spectator.

ANOTHER KILLING.

The Result of a Sunday Morning Row in a Suburb of Owensboro.

Owensboro, Ky., June 5.—The death of John Patterson, a well-known young white man, this afternoon adds another murder case to the criminal docket here. In a general fusillade at Huntersville, a malodorous suburban settlement, early yesterday morning he was shot in the back either by Hiram Drew or Charles Quisenberry. His wounds were not thought to be serious at first. Both Drew and Quisenberry are in jail.

A Principal Chosen.

Guthrie, Ky., June 5.—Prof. Aaron F. Williams, one of the best known educators in the state, has been selected as principal of Walton college in this city. Prof. Williams is known from one end of the state to the other, and is popular wherever he is known. He was a number of years a member of the faculty of Bethel college at Russellville, and has been principal of the college at Clinton, Ky.

Funny Fishing.

A Saugus man made a queer catch on Lily pond, Thursday. He provided himself with the proper gear for pickered fishing, an axe to cut holes in the ice, and a good sized bag in which to bring the fish home. When he returned he had five dead hens in his bag, which he had found frozen into the ice on the pond.—Lynn Item.

GEN. LLOYD WHEATON

A Gallant Army Officer with a Brilliant Record.

His Recent Work as Commander of the Advanced Lines in the Operations Around Manila Has Won Him New Laurels.

Gen. Lloyd Wheaton, commander of the "flying column" of Otis' army, who has rendered such excellent service in cleaning up the insurgents about Manila lately and expediting or destroying their strongholds, is lieutenant colonel of the Twentieth infantry in the regular army. The colonel of that regiment is Hamilton S. Hawkins, who, as brigadier general of volunteers, won a high reputation for gallantry at Santiago. Gen. Wheaton when at home lives in Chicago, but he is only home at intervals. He is presently in the Philippines, with nothing of the carpet knight about him. Born in Michigan, July 15, 1858, he early removed with his parents to Illinois, from which state he enlisted in the Eighth Illinois volunteer infantry April 20, 1861. He was made first sergeant—orderly sergeant, as it was called in those days—of company E. This was a three-month's regiment. Discharged July 24, 1861, he reentered the service the next day, July 25, as first lieutenant of the same regiment, now a three-year's regiment.

He served throughout the war, being finally mustered out May 4, 1866, having meantime been successively promoted to captain, major and lieutenant colonel of his regiment. His promotion to captain was dated March 25, 1862, to major, August 28, 1863, to lieutenant colonel, November 23, 1864.

Besides these promotions in actual rank, Gen. Wheaton was three times brevetted major for gallant and meritorious services in the sieges of Vicksburg, Miss.; lieutenant colonel for gallant and meritorious services at the an-

(Commander of the Flying Column of the Philippine Army.)

sault on Fort Blakely, Ala., and colonel for faithful and meritorious services during campaign against the city of Mobile and its defenses. Nor were those the only distinctions conferred on him for his services during the war. A medal was presented to him by the president "for distinguished gallantry in the assault on Fort Blakely, Ala., April 9, 1865, leading the right wing of his regiment, springing through an embrasure against a strong line of artillery and musketry, the first to enter the enemy's works, while serving as lieutenant colonel of the Eighth Illinois infantry." Gen. Wheaton is therefore simply covering his old laurels with new ones.

Gen. Wheaton will retire from active service July 15, 1902. Mustered out of the volunteer service May 4, 1866, he was tendered a commission as captain in the Thirty-fourth regular infantry July 28 of that year and accepted it October 20. In the reduction of the permanent establishment that was made, pursuant to act of congress in 1890, the Thirty-fourth infantry ceased to exist, and Capt. Wheaton was for a time unassigned. September 1 of that year he was assigned to the Twentieth infantry. He was promoted major October 14, 1891, and lieutenant colonel May 31, 1895. His promotion to major did not take him away from the Twentieth, but when he was made lieutenant colonel the promotion took him to the Twenty-second infantry. He had, however, become so attached to the Twentieth by long association and was so beloved by that regiment that he applied for and secured a transfer back to it in a few months, the transfer being dated September 11, 1895.

Such is Gen. Wheaton's official record, briefly summed up. It is a most honorable one. His life since the close of the civil war has been spent almost altogether on the frontier in the performance of arduous and dangerous service. His promotion to brigadier general of volunteers was due entirely to his fine record as a soldier and officer, for the two do not necessarily mean the same thing, and one could be either without being the other. It is doubtful if Gen. Wheaton has been in Washington since 1866. It is certain he had an army life of several years ago that he had not been in Washington in 25 years.

Recognition Comes Late.

Snake and Chicken Story.

The toughest snake and chicken story comes from Ocala, Fla. A sitting hen, on returning from her dinner to her nest, found that a snake had swallowed three of her eggs. She chased the snake about the woods and killed it, and returned to her nest. Several days afterward a farm hand, while walking in the woods, heard the chirp of young chickens, and on looking around closely, he discovered three young chickens, and lying near by a large chicken snake with a hole poked through him. The young chickens had hatched out in the snake, and pecked away until they were free from his skin, which wasn't as tough as the story.—New Orleans Times.

COTTON CROP.

Estimated Acreage For 1899 is
21,106,000 Acres.

Latham Alexander & Co., New
York, Estimate The 1899
Cotton Crop.

"The total estimated decrease in cotton acreage in the United States for 1899 is 10-14 per cent or 2,466,000 acres less than last year, and the average planting of the crop is about two weeks later than last year.

Our correspondents report that the reduction in the acreage has been brought about by the low price of cotton, reluctance of commission merchants to make as liberal advances to the planters as formerly, and the increased acreage in tobacco, wheat and corn.

In Alabama, Florida, Georgia, Louisiana, Mississippi and South Carolina, owing to the continued drought and defective seed, much complaint exists of poor stands causing much replanting, and of late planting not coming up.

In Arkansas and portions of Texas there are complaints of too much rain causing a grassy condition, and considerable damage from worms.

Our correspondents also report a large reduction in the use of fertilizers: viz: 26 per cent in Alabama, 25 per cent in Florida, 30 per cent in Georgia, 25 per cent in North Carolina, and 30 per cent in South Carolina."

HARDIN AT WILLIAMSTOWN.

Devotes a Part of His Time to Attacking Goebel's Silver Record.

Williamstown, Ky., June 5.—The Hon. P. Wat Hardin addressed a large crowd at the courthouse this afternoon. He declared himself against trusts in every shape and form, but confined himself principally to the money question, and said that he believed the efforts of Senator Goebel to bring other matters into the campaign than those pertaining to the Chicago platform, were not for the good of the party. He shied around the China School Book Bill, but said he would be for the interests of the people, but seemed to fear it was not. He said he favored a fair election law, but said nothing either in defense of or against the Goebel law. He attacked Senator Goebel's silver record and claimed that Goebel never was a silver man until after the election of 1896, and that he only changed then in order to further his own interests. He declared that the fight Goebel made for the McChesney Bill, the China School Book Bill and the election law, was made to further his own personal political ends. His speech was listened to closely and cheered to the echo.

PROTECT THE BIRDS.

Important Facts Compiled by William Dutcher, of the American Ornithologists' Union.

According to the census of 1890 there were in the United States the enormous number of 4,564,641 farms, with a total acreage of 623,218,619. The valuation of these farm lands is placed at the sum of \$13,279,252,649. The labor of the farmer and fruit grower is repaid by products to the value of \$2,460,107,454 per year, but it is said that insects and rodents destroy products annually to the astonishing money value of \$200,000,000, even with the birds as protectors. Just imagine what the additional loss would be were all of the birds destroyed. They are fast being exterminated, and unless that large class of the population, the agriculturists, awaken to the gravity of the situation and absolutely demand that no more birds be killed for any purpose whatever, they will soon feel the shortsightedness in actual dollars and cents. A difference of one per cent, in the value of the farm products amounts to the enormous sum of \$24,601,074. The birds are now killed for two purposes only: for food and millinery ornaments. For food, only a very few are shot, i.e., the game birds, and these only during restricted portions of the year, so they do not materially affect the result.

There is no excuse for shooting the second class of birds, as their value as millinery ornaments is far less than their value as insect destroyers. Besides this, contrast the difference in the money value of the two interests that are opposed to each other. By the census of 1890 we find that the total capital invested in the millinery and lace trade is \$22,939,430, and the cost of the material used that year was \$27,345,118. Place the two interests side by side, \$13,000,000,000 against \$23,000,000. Again, an annual product of \$2,212,000,000 as against \$27,000,000. I ask, and I wish I could shout my question in a voice so loud and clear that every man, woman and child in this broad land of ours could hear it: Have the milliners, with their paltry interests, any right to jeopardize the safety of the agricultural interests? Ponder! A difference of only one percentum in the annual product of our farms and gardens amounts to more than the entire millinery and lace interest of the United States. Will the farmers and fruit growers remain silent much longer and permit the birds, their best friends, to be killed that a trifling interest like the millinery trade may make a few more dollars at the sacrifice of so much that is beautiful, as well as of economic value.

A Self-Made Man.

The Paris papers are telling stories of M. Bassinet, a new member of the French senate. Like many of his colleagues, he is a self-made man, and began life as a journeyman mason. In that capacity he was employed to renovate the sculptural facade of the Luxembourg palace, when the architect, noticing his skill and industry, said to him by way of encouragement: "Why, you couldn't be making a better job of it if it were your own house." The young workman smiled, and is said to have answered: "One never knows what the future may bring forth." He had at the time no political aspirations, but, all the same, he now sits as senator in the building he helped to adorn.—Christian Work.

Water Filters.

Persons who rely upon domestic filters to purify water for household use will be interested to learn that on the authority of the state board of health of Maryland, such filters may steadily lose efficiency until they become first-rate culture beds for bacteria, says the Sanitarian. An example cited is that the case of a man in Baltimore who sends the whole water supply of his house through a large filter and subsequently puts his drinking water through one of the small domestic filters common in the market. A test showed that on a day when the city taps were running 610 bacteria to the cubic centimeter the large filter was delivering 9,900 bacteria to the cubic centimeter.

I was seriously afflicted with a cough for several years, and lost faith in a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me. I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had a good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, Mrs. Mary A. Brand, Claremore, Ark. For sale by R. C. Father Time has to face smokeless powder in his battles with women.

Mr. P. Ketcham of Pike City, Cal., says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by R. C. Hardwick, druggist.

Beatty is Blood Deep.

Clean blood means a clean skin. No beauty without it. Candy Cathartics clean your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. Begin to-day by using pimples, boils, blotches, black heads, and that sickly bilious complexion by taking Candy Cathartics—beauty for ten cents. There is nothing too bad for the small boy who has a pretty grown up sister.

The healthy old man wears his gray hairs like a silver crown. What if he be threescore and ten if there is still fire in his eye, firmness in his step, command in his voice and wisdom in his counsel? He commands love and reverence. Yet how few wear the mantle of age with dignity. Dim eyed, querulous of speech, halting in step, childish in mind, they "lag superfluous on the stage," dragging out the far end of life in a simple existence. The secret of a healthy old age is a healthy middle age. The man who takes care of his stomach, who keeps his body properly nourished, will find that the body does not fail him in old age. The great value of Dr. Pierce's Golden Medical Discovery lies in the preservation of the working power of the stomach and other organs of digestion and nutrition. From this center is distributed the nourishment of the whole body, the salt for the blood, the lime for the bones, phosphates for the brain and nerves. A sound stomach means a sound man. A man who keeps his stomach sound by the use of "Golden Medical Discovery" will wear the crown of gray hairs as befits a monarch, with dignity and grace.

FRIDAY JUNE 9, 1899.

DEMOCRATIC TICKET.

For Railroad Commissioner,
J. FLETCHER DEMPSEY,
of Hopkins County.

ATTENTION, DEMOCRATS!

The Official Call For a Mass Con-
vention Saturday, June 17.

Pursuant to an order of the Demo-
cratic State Executive Committee,
the Democrats of Christian county
are requested to meet at the Court
House in Hopkinsville, Saturday,
June 17, 1899, at 2 o'clock p. m.,
standard time, to select delegates to
the state convention at Louisville,
June 17, 1899.

All known Democrats and others
who supported Wm. J. Bryan for
President, and those who pledge
themselves to support the nominees
of said convention, shall be entitled
to participate in the county convention.

ISAAC GARROTT, Chairman.
GEORGE E. GARY, Secretary.

Sixteen members of the next Sen-
ate have been governors of their
States.

Thus far only 1,661 Cuban sol-
diers have been paid the bounty of
\$75 each.

Johann Strauss, the great Austrian
composer of waltzes, is dead. He
was buried between the graves of
Schubert and Brahms.

Gen. Gomez has issued a fare-
well address to the Cuban army,
which has nearly concluded the
work of disbanding.

Boss Hanna has authorized the
statement that he doesn't want to
be boss any longer. Perhaps Mark
is dissatisfied because he is not the
only fly in the ointment.

Jos. Labraget, a notorious agent
of Weyer, who outraged defenseless
women and killed children, was
lynched at San Antonio, Cuba, Mon-
day, when he returned to his former
home.

Lucas Moore, commissioner of
Agriculture, has designated June
10 as State Day at the Lexington
State College, for the consideration
of ways and means for improving
the highways of the State.

All deals are off in Franklin
county and a hot fight is on, with
Hardin on one side and Goebel on
the other, both with delegations
pledged to Scott for Attorney Gen-
eral and the Stone men lining up
with Goebel.

Chairman Johnston declined to
call a meeting of the State Central
Committee in Louisville as re-
quested, although he was informed
that the committee desired to in-
spect both halls selected and act
for the good of the party. On the
other hand he has called a meeting
for the 13th in the city of Lexington
and in doing so has felt called upon
to issue a two-column address to the
readers of the Louisville Dispatch.

We do not believe the Democrats
of Christian county should vote for
any candidate for Governor whose
position on the present election law,
so essential to fair elections in this
county, is not clearly understood.
Two of the three candidates—Sen-
ator Goebel and Capt. Stone—are in
favor of the law and will if nominated
defend it on the stump. As between
these, other things being equal, Capt.
Stone has claims upon this county
that should not be overlooked.
He is our near neighbor, in the
same judicial district, and bound to
us by many common ties. While
the Democrats of the county feel
grateful to Senator Goebel for his
interest in the Senate in many
matters concerning them, Capt.
Stone is from our own section of the
State and is therefore entitled to
their first consideration.

Warren county is a storm center
of politics in the closing days of the
campaign. At recent meetings of the
Bowling Green committee and the
county committee, new chairmen
were elected, one a Goebel man and
the other a Stone man. The old
chairmen who were Hardin men re-
sisted removal and questioned the
authority of Committee-man Rhea to
fill vacancies in the county com-
mittee, producing an old 1895 rule.
The rules of 1896 and 1897 place
this power in the hands of the dis-
trict Committee-man and the only ap-
pointment to the State Central Com-
mittee is "not to the chairman, who was shorn of all
power except that of a presiding
officer. As the State Central Com-
mittee in the Duval appeal a year
ago voted to sustain the local mem-
bers in such cases, Mr. Rhea is
clearly in the right, since he did
nothing except to fill vacancies,
and this was done weeks ago. The
rule applicable to county com-
mittees reads as follows:

"Each County and Legislative
district committee, if any, shall
elect one of its members Chairman,
and another Secretary, and may
remove them at pleasure and ap-
point others in their places."

This is so plain that it cannot be
misunderstood and the retired
chairmen are simply pursuing re-
volutionary tactics. It is said they
will go so far as to call and hold
separate conventions, in which the
friends of only one candidate will
participate, and send a contesting
delegation to the State Convention.
This of course amounts to a sur-
render of the county, if anything
like fairness is to prevail in the set-
tlement of such contests by the
State Convention.

Fred Friedenheimer, of Louis-
ville, was arrested in Cincinnati
Wednesday as one of the two men
who swindled the German Insurance
Bank out of \$5,000 Monday. The
detectives say he has admitted con-
nection with the robbery, but re-
fuses to tell who his companions are,
saying he will bear all the responsi-
bility.

County Court Orders.

Rev. Francis L. Goff, a minister
of the Presbyterian Church, was
authorized to solemnize the rites of
matrimony.

J. B. Reed was appointed over-
seer of the White Plains and Lacy
Coal road.

R. F. Burchett will have charge
of the Casky and Bradshaw road
from Casky to the Bradshaw road.

O. A. West, named in the will of
the late A. G. Bowling, as executor,
having declined to serve, J. C. Bow-
ling, brother of the deceased, was
appointed to act, with O. A. West
as surety.

Moore-Reeves.

Will Moore, of Trenton, and Miss
Anna Reeves, youngest daughter
of Judge W. B. Reeves, of Elkhon,
were married at the residence of
the bride's father, Wednesday. Dr.
J. M. Gill officiating. Immediately
after the ceremony the bride and
groom left for the groom's home,
near Trenton.

The Davis Estate.

The will of the late John Davis
was read in open court yesterday
for probate. He bequeathed all of
his property to his seven children,
six sons and one daughter. Joseph
C. Davis, one of his sons, is named
as executor. He left a large estate.

Died of Brain Fever.

An 18-months-old child of Mr.
Jno. Charlton died in the city Mon-
day evening of brain trouble. The
remains were buried in the family
burying ground on the Butler road,
a few miles east of the city, Tues-
day afternoon.

There is more Catarrh in this
section of the country than all other
diseases put together, and until the
last few years was supposed to be in-
curable. For a great many years doctors
pronounced it a local disease, and
prescribed local remedies, and by con-
stantly failing to cure with local treat-
ment, pronounced it incurable. Science
has proven Catarrh to be a constitu-
tional disease, and therefore requires
constitutional treatment. Hall's Cat-
arrh Cure, manufactured by F. J.
Clemey & Co., Toledo, Ohio, is the
only constitutional cure on the market.
It is taken internally in doses from 10
drops to a teaspoonful. It acts direct-
ly on the blood and mucous surfaces
of the system. They offer one hun-
dred dollars for any case it fails to
cure. Send for circulars and testi-
monials.

**Buyers Controlling Interest in Ohio
Valley Co.**

Louisville, Ky., June 8.—James
E. Caldwell and associates, who
are largely interested in and con-
trol the Cumberland Telephone &
Telegraph Company, have purchas-
ed the majority of the stock of the
Ohio Valley Telephone Company of
this city, and assumed control of its
plant. The lines of the Cumberland
Company extend over Western Ken-
tucky, a large portion of Tennessee
and the entire States of Mississippi
and Louisiana. The absorption of
the Ohio Valley Company will result
in a telephone system extending
from Louisville to New Orleans,
which will give increased telephone
facilities. Lines are now under
construction, and will soon be com-
pleted, which will connect Louisville
with this vast Southern territory.

COLORED BOY PREACHER.

**Harry Killebrew is Only Seven
Years of Age.**

Harry Killebrew, colored, a boy
preacher, is in Louisville. Printed
postal cards have been sent out
with the following announcement:

"Harry Killebrew was born in
Bowling Green, Ky., May 13, 1891.
He has been preaching the Gospel
since he was five years old. He
has been a wonderful child since
his birth. At the age of five he was
baptized in the M. E. church at
Owensboro, Ky. At the age of six
he received his license, and has
been traveling and preaching ever
since. He is an inspired child from
God, as his actions show. He has
not the timidity and embarrass-
ment of a child as he faces a con-
gregation. He has preached in
both white and colored churches.
He is now seven years old and is
living in Louisville, Ky., at 524
East Main street. Address him as
above in regard to getting his ser-
vices."

GROWING SUNDAY SCHOOL.

**With an Able Superintendent and
Corps of Teachers.**

Herndon, Ky., June 8.—On last
Sunday, the 4th inst., Children's
Day was observed at the Herndon
Methodist church with most ap-
propriate and interesting exercises.
This church has a large and
flourishing Sunday School with Mr.
Hiram H. Sivley as superintendent,
and a most able corps of teachers,
who entered heartily into the work
of preparing for the exercises of
last Sunday. The result of their
efforts was highly appreciated by
the large crowd present on the oc-
casion.

The program was well arranged
and from the young lady in the
bible class to the smallest child in
the infant class, not a failure was
made by any one who played a part.

The children all showed careful
training, their several parts were
well rendered and special credit is
due to Mrs. T. S. Winfree, Misses
Ora Barrow, Annie Braden and
Bennie Coleman for their efficient
and painstaking work in training
the children for this entertainment.

WEDDING NEAR HOWELL.

Popular Young Farmer Weds a Muhlenberg Lady.

A pretty wedding occurred at the home of Mr. E. C. Radford, near Howell at 7 o'clock p. m., Wednesday, the contracting parties being Mr. Jas. O. Stegar, of that neighborhood, and Miss Ida S. Park, of Greenville, Ky. Rev. Payton, of this city performed the ceremony.

Mr. and Mrs. Stegar are very popular with a large circle of friends.

GILBERT-DRYER.

Young Couple Harry And Go to Dawson Springs.

Mr. Fred Gilbert and Miss Irma Dryer, daughter of Mr. F. R. Dryer, were married at the home of the bride's parents Tuesday evening by Rev. Francis Goff. As soon as the ceremony was pronounced the couple left for Dawson Springs, where they will spend a week.

NAMELESS BRIDE.

But All The Same She Is Now Mrs. Harris.

Mr. Baylor Harris, salesman in N. L. McKee's grocery store, was married at St. Bethlehem, Tenn., Tuesday evening to a young lady whose name we failed to learn. He is now at Dawson with his bride and the happy couple will return home in a few days. The wedding took his friends so completely by surprise, that no one in the city yesterday could supply additional information.

WILEY-GRAU.

Marriage to Take Place at the Catholic Church.

Mr. and Mrs. William F. Grau have issued invitations to the marriage of their daughter, Miss Carrie Emily, to Mr. Samuel Ernest Wiley. The event will occur on Wednesday morning, June 28, at seven o'clock and will take place in the St. Peter and St. Paul Catholic church, on East Ninth street, this city.

Cunningham-Jesup.

Mr. James N. Cunningham and Miss Harriet N. Jesup were married at the residence of Mr. E. Cook Roach, in Clarksville Tuesday evening. The couple left immediately for Chicago and on their return will reside at Peachier Mills, where the groom is engaged in merchandising. The bride formerly lived here and is a very pretty, accomplished and attractive lady.

Camp-Warren.

Mr. J. T. Camp and Miss Clara Warren, both of Todd county, were married in this city Wednesday morning by Rev. W. L. Payton, of the Baptist church.

Graduates Face The Footlights At The Tabernacle.

Closing Exercises of The Hopkinsville Public School Held Last Night.

The last of the commencement exercises of the Public Schools were held at the Tabernacle last night and the eighteen young ladies and gentlemen, whose names have been previously given, were given certificates of graduation, having completed the course of instruction in the High School department.

A large audience was present and the entertainment was a very interesting one. The cake walk feature participated in by the primary grades, was a distinct success and was very amusing.

The early hour at which we went to press prevents more than a passing notice in this issue.

ABOUT THE WEED.

The Market This Week Reported a Little Irregular.

The tobacco market was a little irregular this week, and prices were possibly a shade lower than those of last week on all grades of the weed. This was largely due to the fact that there was less activity shown on part of buyers. Very little choice tobacco was offered, the sales being made up mostly of the lower grades. Good leaf ranged from \$6.50 to \$9.75, common to medium leaf from \$6.25 to \$4.50, medium to good lugs from \$4.75 to \$4.00, and common to medium lugs from \$2.00 to \$3.50. The very busy season among the farmers has caused a slight falling off in receipts, but they are still very heavy.

The offerings were large and sales amounted to nearly one thousand and hogheads this week. Rejections were also large. There is very little being done on the loose market.

CANDIDATES SPEAK

Messrs. N. B. Hays and W. B. Fleming at The Court House.

Mr. N. B. Hays, of Pineville, Ky., candidate for attorney-general, spoke by appointment at the Court House Wednesday afternoon and made one of the best speeches heard here this season. He discussed state matters especially in a very entertaining manner and cited numerous instances of Republican frauds in the mountain counties that rendered the passage of a reform election bill necessary. He said in his own county the county judge refused to divide the election officers as required by law, but appointed notorious bums and heelers to represent the Democratic party. The county clerk, he said, took the registration books to a saloon late at night and registered numbers of floaters from Tennessee and Virginia. He discussed these frauds at length and declared that he was not only in favor of the present election law, but wanted something still better and also favored a constitutional amendment doing away with the secret ballot altogether. This portion of his speech was loudly applauded.

Judge W. B. Fleming, candidate for the same office, was also present and followed Mr. Hays in a short speech, taking substantially the same position upon state issues as Mr. Hays.

Mr. Hays left yesterday for Owensboro to continue his canvass in the Second District. He is a lawyer of high standing in Eastern Kentucky and was a Democratic elector in 1892. His wife, formerly Miss Rosa Montgomery, of Providence, Ky., was educated at Bethel Female College and is very pleasantly remembered here by those who knew her as a schoolgirl.

A NEW MICROBE.

From Paris Comes Word of the New Microbe Discovered by Professor Fahrig, the Eminent Bacteriologist, Which, it Has Been Proved, Causes Baldness.

HOW THE MICROBE WORKS.

What is Needed to Stop Its Ravages and Prevent Our Descendants from Being a Race of Bald Heads.

FALLING HAIR IS CURABLE.

Paris, June 1.—Prof. E. Fahrig, the eminent professor of chemistry and doctor of science, has made public the nature of his latest discoveries in regard to fibre, human hair and the microbe which causes dandruff, falling hair, gray hair and baldness.

His discovery will, when thoroughly understood, revolutionize the treatment of all hair diseases.

In his treatise lately published he describes his experiments as to the contagious properties of dandruff, as caused by the transferring of the microbe from one person to another in hair brushes etc., and also explains how the microbe can be destroyed by proper germicidal and microbiocidal applications.

This treatment, as Dr. Fahrig makes clear, by destroying the microbe also cures the disease of which it is the cause, and therefore gives permanent relief from dandruff and falling hair, and prevents gray hair and baldness even up to extreme old age.

His formulae have been used in the preparation of Cranitonic Hair Food, as made in Paris at the laboratories of the Cranitonic Hair Food Co., according to his directions, and this article is therefore the only logical and scientific treatment for all hair and scalp diseases.

The American laboratories in New York City, to prove its wonderful efficacy, will give away a free bottle to every applicant, by mail prepaid to any address.

Those of our readers who wish to take advantage of this free offer should send their name and address at once to the Cranitonic Hair Food Co., 526 West Broadway, New York City, enclosing ten cents in stamps or silver to pay postage, and mention the HOPKINSVILLE KENTUCKIAN, when the free bottle will be sent them direct by mail prepaid.

If the disposition to worms in children, is not cured they may be emaciated, weakly and in danger of convulsions. WHITE'S CREAM VERMIFUGE is the most successful and popular remedy. Price 25 cts. Sold by R. C. Hardwick.

SEASON OF 1899.

To Our Friends: Another season of seed time is fast approaching, and the wise and prudent farmer will again use the old and favorably known JONES' BRANDS OF BONE AND ANIMAL MATTER FERTILIZERS, that have for many years done their full duty when applied to both Spring and Fall crops. The use of commercial Fertilizers is almost universal, and the experience of many years has proven conclusively that ANIMAL MATTER FERTILIZERS are the most complete plant food known, and the fact of putting ACID PHOSPHATE ROCK in a bag and branding it "DIS SOLVED BONE" does not make it animal matter. Honest strictly pure Animal Matter Fertilizers cost more than rock goods because they are worth more, and we ask that you remember this fact. Our goods cost under our guarantee analysis, and this guarantee is good. We offer our goods on their merits, and refer with great satisfaction to their most excellent reputation in all parts of Ohio, Indiana, and Kentucky, where they are extensively used. We respectfully urge you to give the celebrated Jones Fertilizing Co.'s goods a trial on both Spring and Fall crops, and we know satisfactory results and future orders will certainly follow.

PATIENT AND USEFUL

In the Rocky Mountain Country the Hardy Little Burro is the Settler's Best Friend.

Travelers to mountainous countries are sure, sooner or later, to make the acquaintance of those patient and long-suffering beasts of burden—mountain burros. Of phenomenal strength on the scantiest supply of food, the burro is an important factor in the development of new countries. It can go where the railroad cannot, and its footing is secure when that of the horse and mule would be uncertain. The load one of these little creatures can carry is astonishing. The illustration shows one with nearly a cord of wood on its back and this writer has seen one of the most diminutive of these little creatures going slowly but surely up a perilous trail in the Rocky mountains with a cooking stove, bedstead, bedding, two chairs, three valises, a small trunk and a number of pots, pans and kettles and tinware of all sorts on its back. It is not uncommon to see them setting forth on a long journey with a barrel of flour strapped on either side and other freight on their backs. One meets long trains of them in the Rocky mountains coming down from mines at the very summits of the mountains with hundreds of pounds of stout canvas bags on their backs. Indeed, it would be almost impossible to develop some mines were it not for the assistance of the donkey in carrying supplies to the mines and in carrying the ore away. It is almost impossible to get to them more faster than at the slow, plodding pace they have set for themselves. Blows, kicks and curses are of

ROCKY MOUNTAIN BURRO.

no avail. Thus fast and no faster will they go. It is impossible to think of them as "running away" under any provocation, and even "saying" is not one of his weaknesses. He is as stupid as he is faithful, and in his infinite patience is due more to lack of spirit than to anything else. He is a joy to children, and will submit to any sort of indignity from them, while he will not only "carry double" but even triple, and if half a dozen boys and girls could get on a burro at once he would carry them all, but the combined efforts of the six could not induce him to go faster than his regular and snail-like gait.

The only time that the burro gives evidence of having a slumbering lion in his breast is when he wages war against one of his own species. He fights spiritedly and fiercely. What calls forth these encounters is a mystery, but two of these little creatures will sometimes "fight" and fight furiously, using their teeth and heels with powerful effect. When the battle is ended they lapse back into their utter lethargy and stupidity, and are nothing but patient, plodding beasts of heavy burdens—Detroit Free Press.

Tallow Candles as Medicine.

In France the peasantry still stick to medicines calculated to turn the average doctor's hair gray with horror. Wine is an ingredient of every prescription. In fever cases it is always the predominant one. The French peasant's faith in fermented grape juice is truly beautiful. If his children are stricken with the measles he gives them bunches of wine, well sweetened with honey and highly spiced with pepper. For a severe cold he administers a quart of red wine and a melted tallow candle mixed. For scarlet or brain fever he gives eggs, white wine and well beaten together. Not all their superstitions are curious; some are pathetic. A mother, for instance, often buries her dead child with its favorite toy, "that it may be her own hair in the coffin," "that it may not feel quite alone."

Dog Called by Telephone.

The Daily Telegraph narrates the following incident: "A lady passenger who arrived at Redhill by train reported in great grief to the station master that her little pet dog had been left by accident on the platform at Reigate, and would likely be either crushed by a locomotive or lost. The courteous official telegraphed through Reigate to Poole, and the answer came immediately that a dog of that description had just been brought into the police station. The receiver was put to the dog's ear and the lady was asked to speak to it. She did so. The effect was electrical. The dog barked a cordial recognition of the voice, and by its actions expressed a great desire to jump into the apparatus and traverse the wire in order to get to its mistress all

FIGHT WITH WILDCAT.

Hunter Was Getting the Worst of It Until His Dog Took a Part in the Combat.

William Babcock, one of the best known trappers and hunters in Sullivan county, N. Y., is the hero of a thrilling experience in wildcat hunting. The many swamps of the county are inhabited by hundreds of these vicious brutes, and hunters devote the winter season to shooting and trapping them, both for the bounty and the excitement. Babcock started out early one morning with one of his trained dogs for a "little hunt" in Flanigan swamp, near his home. He had been out but a short time before the dog had treed a big wildcat. Babcock soon reached the scene and fired four shots into the body of the cat, but it did not drop. It was in the crotch of the tree, and the hunter supposed he had killed it, and the fork of the tree prevented him from falling. He accordingly laid down his gun, and removing his cartridge belt, started to climb the tree to secure his prize. When within a few feet of the brute he emitted a scream and shot through the air. Striking on Babcock's back, it caused him to lose his hold, and man and cat went tumbling through the limbs to the ground. The wounded and now enraged beast did not for a second loose his grip upon his back, but kept biting him when they reached the ground. The dog was waiting for them, and seeing his master's danger, sprang upon the wildcat with such ferocity that it let go of Babcock and pitched into the dog, and a fierce combat ensued. They rolled over and over biting and growling. Babcock all the time being afraid to shoot lest he should injure his brave dog. After a long struggle the wildcat weakened on the loss of blood from the shots of Babcock's gun, gave up the fight and was soon finished by Babcock and the dog. Both the hunter and the dog are terribly lacerated from the claws of the wildcat.—N. Y. Sun.

DEFEATED BY A RAT.

Schoolboys Expect to Have Lots of Fun with an Old Rodeo, But Are Disappointed.

"Knowledge is power," and age and experience brings knowledge if not always wisdom. This fact was shown in a West side schoolhouse recently, when one of the boys trapped a large gray rat. At the noon hour he took counsel with his comrades and they decided to dispose of the rodent in sportsmanlike style by giving him a chance for his life. The rat was evidently very old, but he was also very fierce and quick to resent any advances made by the boys.

They decided to hold the exercise in one of the narrow hallways of the building. One boy stationed himself with the trap at one end of the hallway and the others, armed with brooms and

AWAY WENT MR. RAT.

sticks, ranged themselves along the walls ready to smite the rat as he ran by them.

But when the trap was opened the wily old animal took the offensive and charged one of the boys, who immediately danced around and yelled for help. The others docketed to his rescue and began pounding the floor and each other's toes in vain efforts to embarrass the rat. When they were thoroughly mixed the gray-haired hero of many battles slipped out of the net and scurried down the hall, leaving them to settle their own disturbance.—Chicago Daily News.

The Largest Thermometer.

Biggest of all thermometers in the world is the one which Col. Knight is placing in the ground at Harestock, Winchester, Mass. It is 70 feet long, nearly twice the length of the longest ever made. The object in making such a shaft into the earth is to take the temperature of the earth at that depth. To lower the thermometer it is necessary to put up scaffolding at least 70 feet high. The instrument was raised by means of steam cranes, and then lowered carefully into the 70-foot hole which had been dug for it. The thermometer is made on the same principle as the household ones, but because of its size, several unusual difficulties had to be overcome.

GOEBEL'S DATE.

The Kenton Senator Makes two Speeches To-day.

At Pembroke This Afternoon and at the Court House To-night.

Senator Goebel will close his canvass in Christian County to-day with two speeches. The first will be at Pembroke this afternoon.

The speaking at Pembroke will take place in the large and shady lawn of Mr. G. H. Smith and as this is the first political speech at Pembroke during this campaign, he will doubtless have a good crowd.

The speech at the Court House to-night will close Senator Goebel's canvass in this part of the State. Being at night he will address himself especially to the workmen and business men who cannot get away in the day time. It is expected that he will put a good deal of "ginger" into the speech, along the same lines as his recent speech at Bedford.

A great many ladies have expressed their intention to be present. The crowd will undoubtedly be a large one, as there is a general desire to hear Senator Goebel, among the supporters of all of the candidates.

SUDDEN DEATH

Of Mrs. Anderson at Gracey Tuesday.

Mrs. Pocahontas Wall Anderson, wife of Dr. Clarence Anderson, of Princeton, died very suddenly at the home of her brother, Mr. B. J. Wall, in Gracey, Tuesday afternoon about 3 o'clock, of dropsy of the heart. She had been in bad health for some months, but was up and about. On Monday night she came to Gracey with her husband on a visit to her brother and was taken ill the next day and soon became unconscious and grew worse until death came.

She was in the 31st year of her age and leaves no children. Mrs. Anderson was educated in this city and has many relatives and friends here. Dr. Anderson is a son of Dr. Clarence Anderson, the photographer. The funeral services were held at the grave Wednesday by Eld. H. D. Smith and the interment took place in Hopewell Cemetery.

Every thoughtful owner of stock has a large lump of RETSOFF ROCK SALT in his manger, horse lot and pasture. This enables his stock to get salt all the time without getting too much, which sometimes proves fatal. We have just received a car load of it. It's the only pure salt obtainable. It will last a long time in the weather.

GOEBEL'S DATE.

The Kenton Senator Makes two Speeches To-day.

At Pembroke This Afternoon and at the Court House To-night.

Senator Goebel will close his canvass in Christian County to-day with two speeches. The first will be at Pembroke this afternoon.

The speaking at Pembroke will take place in the large and shady lawn of Mr. G. H. Smith and as this is the first political speech at Pembroke during this campaign, he will doubtless have a good crowd.

The speech at the Court House to-night will close Senator Goebel's canvass in this part of the State. Being at night he will address himself especially to the workmen and business men who cannot get away in the day time. It is expected that he will put a good deal of "ginger" into the speech, along the same lines as his recent speech at Bedford.

A great many ladies have expressed their intention to be present. The crowd will undoubtedly be a large one, as there is a general desire to hear Senator Goebel, among the supporters of all of the candidates.

SUDDEN DEATH

Of Mrs. Anderson at Gracey Tuesday.

Mrs. Pocahontas Wall Anderson, wife of Dr. Clarence Anderson, of Princeton, died very suddenly at the home of her brother, Mr. B. J. Wall, in Gracey, Tuesday afternoon about 3 o'clock, of dropsy of the heart. She had been in bad health for some months, but was up and about. On Monday night she came to Gracey with her husband on a visit to her brother and was taken ill the next day and soon became unconscious and grew worse until death came.

She was in the 31st year of her age and leaves no children. Mrs. Anderson was educated in this city and has many relatives and friends here. Dr. Anderson is a son of Mr. Clarence Anderson, the photographer. The funeral services were held at the grave Wednesday by Eld. H. D. Smith and the interment took place in Hopewell Cemetery.

Every thoughtful owner of stock has a large lump of RETSOFF ROCK SALT in his manger, horse lot and pasture. This enables his stock to get salt all the time without getting too much, which sometimes proves fatal. We have just received a car load of it. It's the only pure salt obtainable. It will last a long time in the weather.

CERULEAN SPRINGS.

Many Improvements and a Pleasant Season in Store.

The Cerulean Springs hotel is now open for the reception of guests. Mr. Sam Boyd is the landlord and popular Tom Gunn is behind the clerk's desk. Mr. Boyd bought the property last fall and has spent the time since in making many needed improvements and the season opens with everything as neat as a new pin.

The hotel has been painted inside and out and the bedrooms to a great extent have been refurnished. In front of the hotel pavements have been laid and many little conveniences have been added about the grounds. The fare, as usual, is first-class.

The date of the opening ball will be announced in a few days. The band will arrive about the 10th inst.
